

# GREEN NAC

## Whole House Water Conditioner and Anti-Scale System

- **Reduces Scale**
- **Eliminates Chlorine**
- **NO** Waste Water
- **NO** Electricity
- **NO** Salt or Potassium
- **10** gpm Flow Rate
- **Independently Tested**

by **Arizona State University**

# GREEN NAC

## Easy to Install:

Just In and Out. No Drain. No Electric to worry about.

## Salt-Free Media Benefits

- Reduces Scale
- Eliminates Chlorine
- No Water Waste
- No Electricity
- No Salt or Potassium
- 10 gpm Flow Rate
- Independently Tested

By **Arizona State University**

**Optional:** Special Cubes add a Bacteriostatic to keep down Bacteria growth in the bed.

- Environmentally friendly
- Reduce other harmful contaminants
- Reduces scale without using salt or water
- Operates without electricity

Made in USA

Granular Activated Carbon Filter reduces all the **Chlorine** that makes the water smell.

1 cubic foot has the ability to remove 1 part per million of chlorine from a million gallons of water.

A GAC filter also can remove the alphabet soup of contaminants you see on the news on a regular basis such as:

- **TCE**
- **PCB**
- **Benzene**
- **Pesticides**
- **Herbicides**
- **Insecticides**

Carbon is one of the most porous materials on Earth. It has a surface area of 1,050 square meters per gram.

(456 grams in a pound, 27 lbs. per cubic foot, over 107 football fields per/cubic foot).
